In addition to the automatic reviews performed by the application, reviewers manually check all of the following. Regions need to review applications prior to sending to the state governing body review. If any of the areas in lines 1-5 and 9-12 are marked "No" at the region, the application is to be rejected and not sent to the state review. If any of the areas in lines 6-8 are marked "No" at the regional review, these areas must be corrected and reevaluated at the regional level with a new review sheet before being sent to the state review. If any areas 1-12 are marked "No" at the state review, there will not be an opportunity to make corrections and the application will not be approved for state nomination.
